Rajat Jain

Senior Software Engineer | Full-Stack, AI-Powered Applications, React.js

Jaipur, India | 9680593198 | rajatjain0408@gmail.com | LinkedIn | Portfolio (open with portfolio folder)

SUMMARY

Senior Software Engineer with 9+ years of frontend experience, specializing in AI-powered applications and full-stack development with React.js, TypeScript and JavaScript, supported by Node.js, Python and REST and GraphQL APIs. Applies Generative AI, LLMs, prompt engineering, Retrieval-Augmented Generation (RAG), embeddings and vector search (FAISS, Ollama). Skilled in reusable, accessible (WCAG) UI components and design systems, CI/CD and cloud deployment, secure coding practices and code reviews. Works closely with product managers, designers and backend engineers.

SKILLS

Frontend: React.js, Next.js, Svelte, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, Design Systems, WCAG accessibility

Programming: JavaScript, TypeScript, Python, Node.js; hands-on C#, Java, C++

Backend & APIs: Node.js, Python, REST API integration, GraphQL

Generative AI: Generative AI, LLMs, prompt engineering, RAG, AI API integration, embeddings, vector search, FAISS, Ollama

Cloud, DevOps & Security: Cloud deployment, CI/CD, authentication, input validation, security reviews, code reviews

Tools & Testing: Jest, Webpack, Vite, Git, GitHub, Figma, Jira

EXPERIENCE

Senior AI Frontend Engineer | Nagarro Private Limited, Jaipur | Mar 2024 – Present

• Built 10+ React.js and TypeScript screens for an AI-powered application using LLMs and Ollama, with reusable, accessible components that improved frontend maintainability.
• Developed backend APIs in Node.js and Python, including RAG retrieval with FAISS vector search, to support the AI application.
• Deployed applications using cloud services and CI/CD pipelines; applied secure coding practices including authentication, input validation and security reviews.
• Collaborated with product managers, designers and backend engineers; performed code reviews and upheld code-quality standards.

Front End Developer | Wipro Private Limited, Jaipur | Mar 2022 – Mar 2024

• Built 20+ reusable React.js components using JavaScript and TypeScript.
• Integrated 15+ REST API endpoints to support scalable web application development.
• Worked with backend engineers, product managers and designers to deliver features; performed code reviews.

Front End Developer | ATCS, Jaipur | Jan 2021 – Mar 2022

• Developed 15+ reusable React.js and TypeScript components across web applications.
• Resolved cross-browser UI issues, improving interface consistency and maintainability.

Front End Developer | Webcontxt, Jaipur | Aug 2020 – Dec 2020

• Developed interactive React.js components in JavaScript, delivering responsive and consistent interfaces.

Front End Developer | Anktech Software Private Limited, Jaipur | Apr 2017 – Jul 2020

• Developed and maintained React.js interfaces in JavaScript for web applications; resolved UI issues to improve responsiveness and user experience.

SELECTED PROJECTS

Schneider Electric: Worked in the Svelte and Builder.io environment; project activity included validating the Product Listing Page (PLP) and Charge app, with accessibility as an important focus area. Specific defect fixes and measured outcomes are not stated.

Career Development Project · Clifton Suspension Bridge: Project names retained from the portfolio. Project-specific responsibilities, technology stacks and outcomes are not stated in the supplied resume and are not assumed.

EDUCATION

Bachelor of Engineering, Electrical, Electronics and Communications Engineering | Birla Institute of Technology, Mesra | Aug 2016
